

LES\_CARIATIDES\_INDECISES

Notre-dame-la-grande

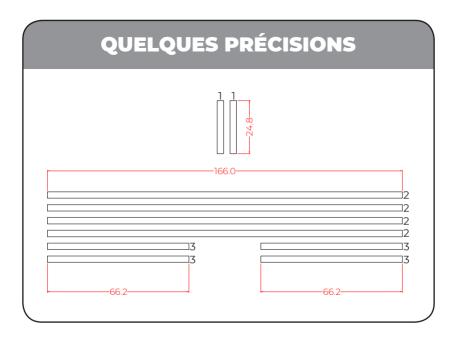

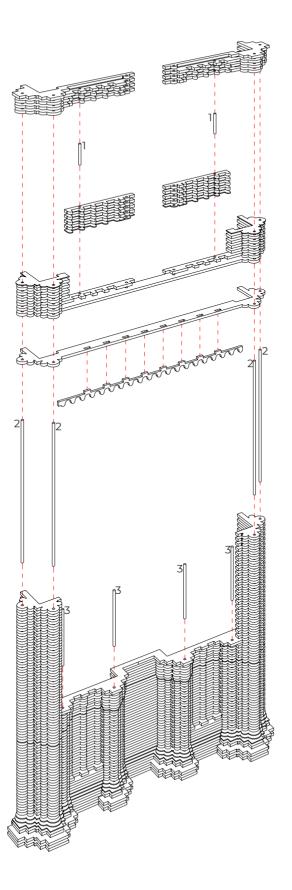

-La maquette que vous allez construire est en carton bois.

Il s'agit d'un carton fabriqué à partir de pulpe de bois naturel, sans acide et au pH neutre

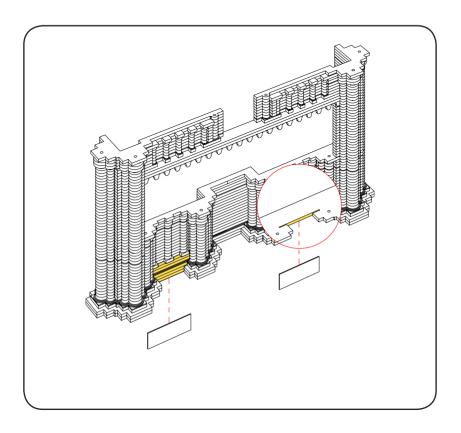

- -Dans une démarche éco-responsable, les chutes de cartons produites par la réalisation de la maquette sont revalorisées et transformées en papier.
- -Le carton bois est un très bon support pour la peinture acrylique, il est donc possible si tel est votre souhait de peindre la maguette.
- -Seules les zones signifiées en jaune dans cette présente notice sont à encoller, il est cependant possible de coller les autres éléments si tel est votre souhait.
- -Difficulté : modérée
- -Temps de montage : environ 8H

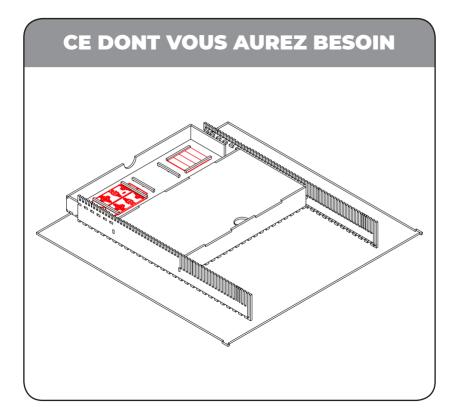

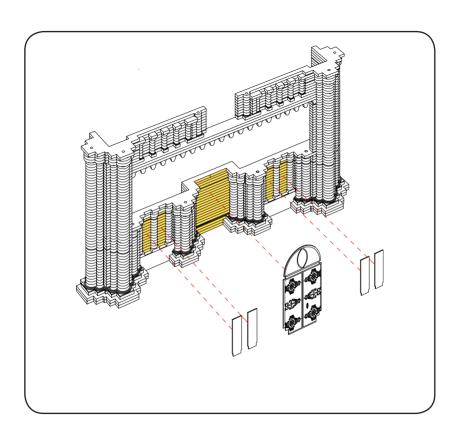

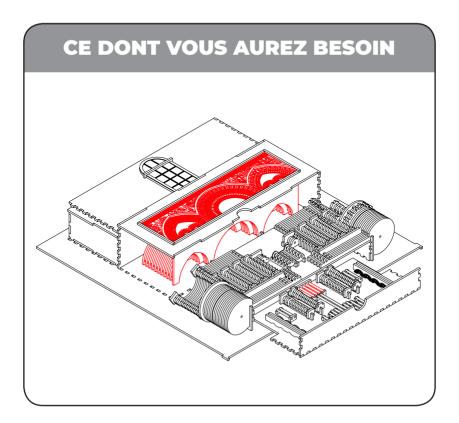

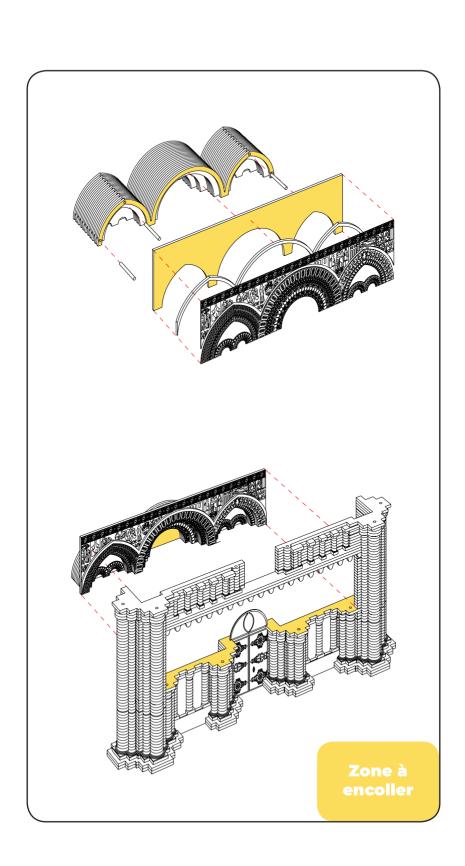

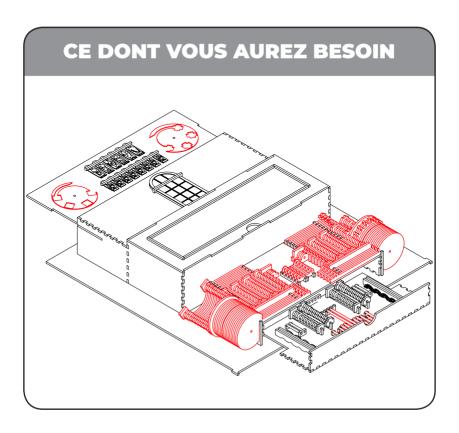

Emboiter les élèments par l'encoche située sous la maquette.
